

"THE PERSONAL TOUCH IN TASTE"

Research & Development

HOT LIST

Partner with Foran Spice for your entire creative project ideas. Custom developed flavor profiles can be confidential and proprietary. Foran's product development team has created these new and exciting flavor systems designed for a variety of base products.

Meat & Poultry

Korean Sweet & Hot – rich, savory soy sauce joined with roasted sesame seed provides the base for this sweet and spicy blend with notes of ginger, garlic and lemon juice.

Sweet Thai Chili – a sweet balance of an array of red and black peppers that make up this delectable seasoning, it exudes a background of aromatic garlic and mild heat.

Asian Stir-fry – bold, robust soy sauce intermixed with roasted sesame flavor to create a complex flavor combination.

Honey Maple – a timeless flavor combination of sweet honey and sugary maple flavor to form an excellent seasoning profile.

Belizian Cochinita Pibil – bold citrus notes, elevated heat and a deep red color are this seasoning's delicious characteristics.
